

Empowering Growth with Innovative IT Solutions

A forward-thinking technology partner delivering web & software development, ERP platforms, mobile apps, cloud & DevOps, and communication solutions.

Who We Are

Empowering Businesses with Cutting-Edge IT Solutions.

Web & Software Development, ERP & HRMS, Mobile Apps, Cloud & DevOps, Communication Solutions, and Beyond.

Apothem IT Solutions is a forward-thinking technology partner, specializing in comprehensive IT services — from custom software development to cloud solutions. With deep, hands-on experience across **real estate, construction estimation, travel, HR and finance**, we transform businesses by delivering tailored digital solutions that drive measurable success.

We aim to build long-term partnerships by pairing modern engineering with a genuine understanding of each client's operations.

Mission & Vision

Our Mission

Our mission is to provide tailored, innovative IT solutions that help businesses thrive in the digital era. By combining cutting-edge technology with a deep understanding of our clients' unique needs, we streamline operations, enhance productivity, and drive sustainable growth. We are dedicated to building long-term partnerships by delivering exceptional results that add value to every business we serve.

Our Vision

Our vision is to become a global IT solutions leader, recognized for pioneering digital transformation. We aspire to empower organizations worldwide by making technology an enabler of progress. Through continuous innovation and unwavering client commitment, we strive to shape the future of business by delivering solutions that foster growth, adaptability, and success in an ever-evolving digital landscape.

"True growth happens when innovation meets dedication."

Our Values

At Apothem IT Solutions LLP, our values define who we are and how we operate. They guide every decision and help us build lasting relationships with our clients.

Integrity First

We are committed to honesty and transparency in all our interactions. Trust is the foundation of our business.

Client-Centric Approach

Our clients' success is our success. We go above and beyond to deliver solutions that exceed expectations.

Innovation & Excellence

We continuously push the boundaries of technology to provide cutting-edge solutions that keep our clients ahead of the curve.

Accountability

We take ownership of our work and ensure every project meets the highest standards of quality and professionalism.

Collaboration

We believe in the power of teamwork, both within our company and with our clients, to achieve the best results.

Long-Term Partnership

We invest in reliable, lasting relationships — supporting our clients well beyond deployment.

Our Services

Web Development

Fast, secure, SEO-friendly and scalable websites.

Mobile App Development

iOS & Android apps for field and site teams.

Cloud & DevOps Solutions

Automate and optimize deployment with DevOps.

UI & UX Design

Designing seamless, aesthetic user experiences.

Software Development

Custom software — including full ERP & HRMS platforms.

VPS & Cloud Hosting

Secure, scalable hosting for all your needs.

Communication Solutions

Bulk SMS, voice calls and WhatsApp messaging.

Digital Marketing

SEO, PPC, social media and content marketing.

End-to-end delivery

From discovery and design through development, deployment and ongoing support — one accountable partner for the entire lifecycle.

Why Choose Us?

At Apothem, we offer client-focused, innovative solutions tailored to meet your business needs. Our team delivers scalable services backed by years of expertise across various industries. We prioritize transparent communication and provide end-to-end support, from project inception to deployment. With cost-effective and reliable solutions, we foster long-term partnerships built on trust.

Keystone QS — HRMS & ERP Platform

Construction · Quantity Surveying | Web Application

A complete web ERP with biometric attendance, access control and an intelligent project time-estimation engine.

THE CHALLENGE

Attendance was manual and unreliable, and the firm had no accurate way to estimate how long a project would take — making planning and billing guesswork.

WHAT WE BUILT

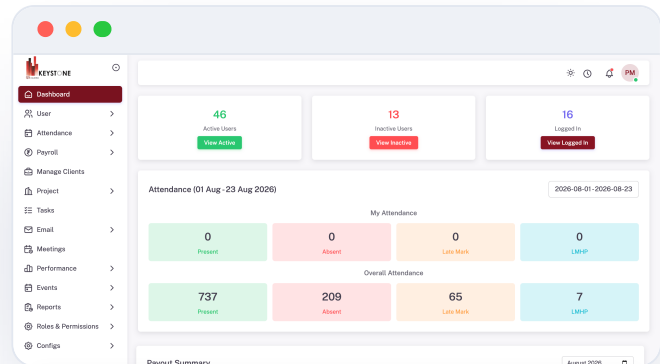

Advanced biometric attendance integrated with **two biometric access-control machines** that capture in-office time and auto-mark attendance. On top of that, a project time-calculation engine estimates the time required to complete each project — plus payroll, project & task management, CRM and role-based access.

Laravel

PHP

MySQL

Biometric Integration

Biometric · Access Control

real-time attendance with automated project time estimation

Keystone QS — Cost Estimation App

Construction · Real Estate | iOS & Android

A mobile app that gives builders live estimated-vs-actual project cost analytics on the go.

THE CHALLENGE

Site teams needed instant estimated, actual and difference cost figures — per work category — without opening a laptop.

WHAT WE BUILT

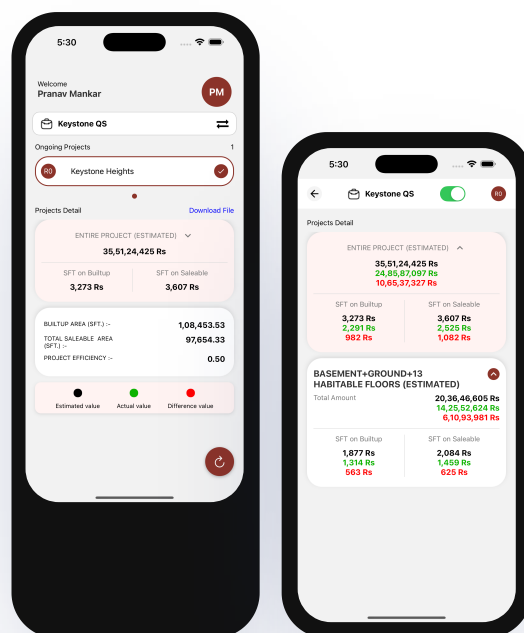

Cost estimation that breaks each project into work categories (earthwork, RCC, finishing...), showing **estimated, actual and difference** values, plus built-up vs saleable rates.

React Native

iOS & Android

Laravel API

Each work item is colour-coded — black for estimated, green for actual, red for the difference.

55+ real-estate projects estimated

with live estimated · actual · difference cost tracking per work category

OUR PORTFOLIO

Sitaram Pandit — Website + Labour Management

Construction | Website & Custom Admin System

A public brand website plus a custom panel to manage on-site labour, wages and expenses across multiple sites.

THE CHALLENGE

Daily labour (hajeri), wages and site expenses were tracked manually on paper — impossible to reconcile across sites.

WHAT WE BUILT

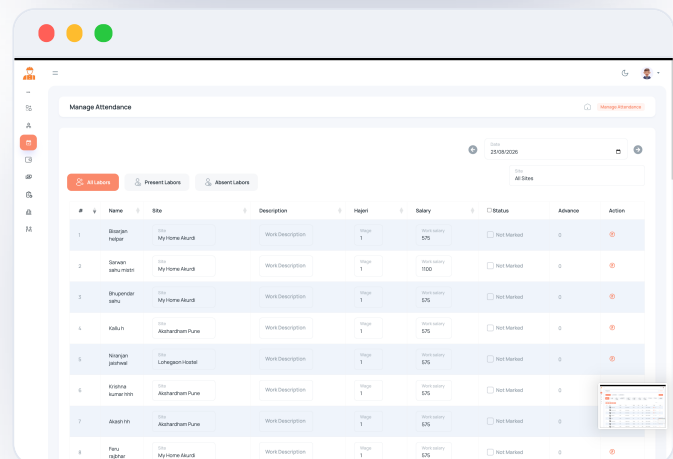

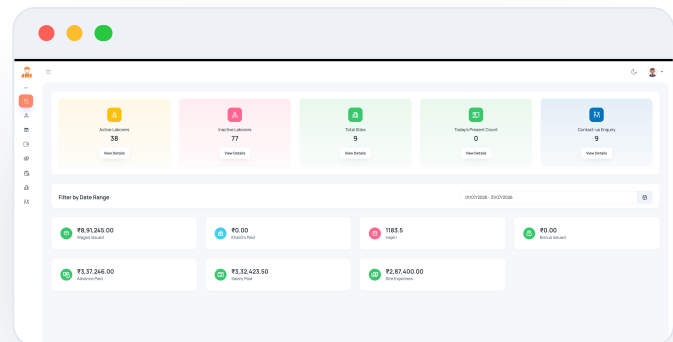

A marketing website plus an admin for labourer records, attendance, wages/advances/salary, site expenses and contact enquiries across every site.

Laravel

PHP

MySQL

Custom Admin

115 labourers • 9 sites

managed live — with ₹8.9L+ in wages issued per month

“Apothem built us a customized workforce management system that finally put all our site labour and wages in one place.

Dilip Pandit — Director, Pandit Constructions

12

OUR PORTFOLIO

TripMall — Travel & Tour Booking

Travel & Tourism | Multi-Service Platform

A multi-service booking platform for tours, hotels and cars with a full admin back office.

THE CHALLENGE

The client needed one platform to sell and manage tour packages, hotels and car rentals — with payments, coupons and reviews.

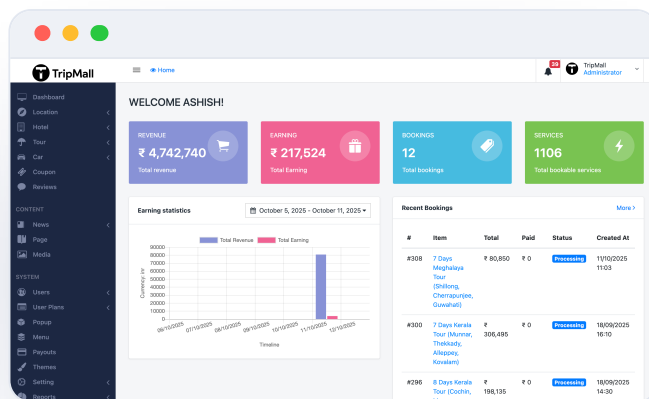

WHAT WE BUILT

Location, hotel, tour and car modules, coupons, reviews, user plans, payouts, a CMS (news / pages / media) and a live revenue dashboard.

Laravel

PHP

MySQL

₹47L+ revenue

processed across 1,100+ bookable services

“ Their team was professional, responsive and focused. TripMall runs smoothly and our bookings are all in one dashboard now.

Ashish Kumbhare — Director, TripMall

OUR PORTFOLIO

Admission Papa — Admission Platform

Education · Admissions | Web Platform

An online admission platform connecting students with colleges, courses and streams.

THE CHALLENGE

Admission enquiries, course catalogs and student outreach were handled manually — hard to track across streams and locations.

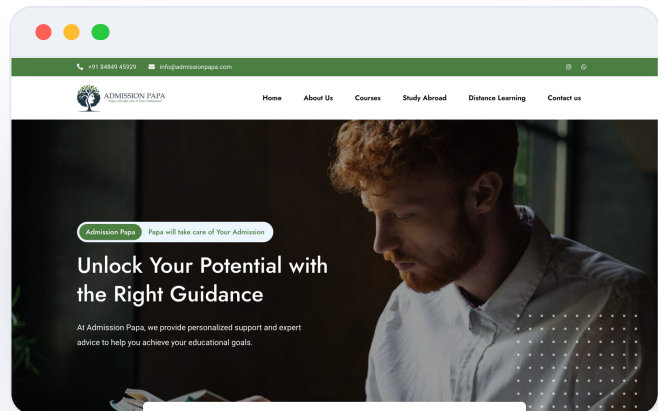

WHAT WE BUILT

A stream & course catalog, course-enquiry capture, location-wise enquiries, contact management, subscriber lists and a complete admin dashboard.

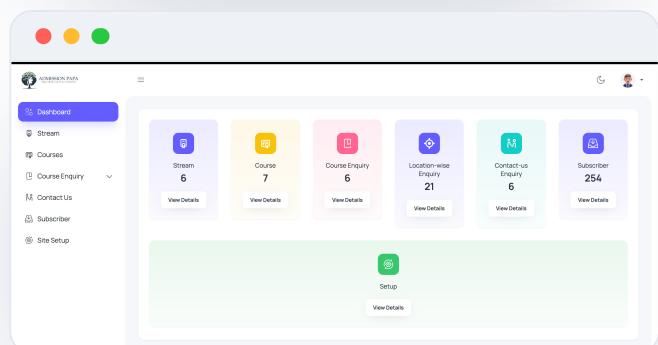

Laravel

PHP

MySQL

Public website

Admin dashboard

254+ subscribers · 6 streams

across 7 courses, with live course & location-wise enquiry tracking

Apothem delivered our educational platform end to end — it made managing admissions and enquiries genuinely simple.

Dinesh Panicker — Director, Admission Papa

OUR PORTFOLIO

Sai Pure Veg — Restaurant Website

Restaurant · Hospitality | Website & Admin

A restaurant website with an online menu, table booking and enquiry management.

THE CHALLENGE

The restaurant needed a polished online presence — menu, table reservations and customer enquiries — all manageable from one place.

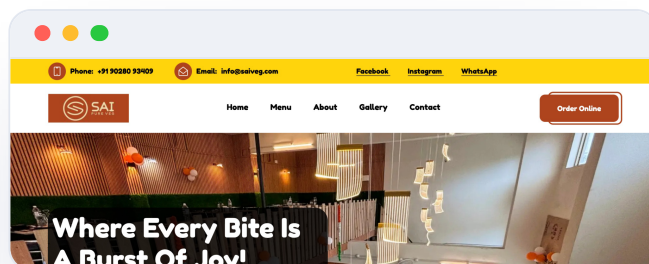

WHAT WE BUILT

A public website plus an admin panel for menu categories & dishes, table bookings, customer enquiries and full site setup.

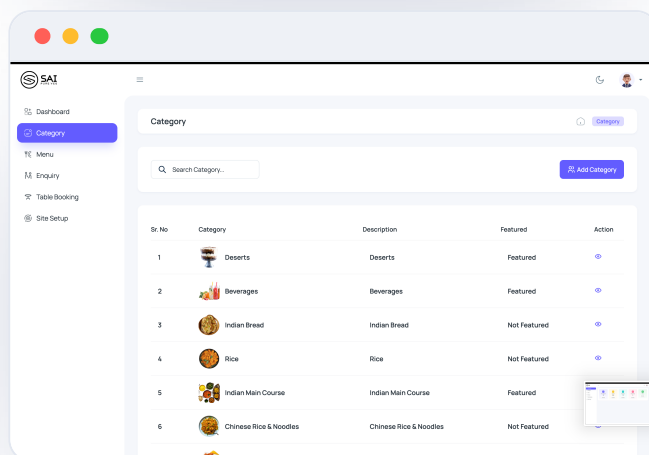

Laravel

PHP

MySQL

Public website

Menu management (admin)

204 dishes · 10 categories

with online table booking and customer enquiry management

Trusted By Clients

We're proud to partner with businesses across real estate, construction, travel and education.
